i10-index: 12

education

- 2012–2015 **PhD Applied Bioinformatics** University of Queensland, Brisbane
Working in the Applied Bioinformatics group on the use of genotyping by sequencing to improve the genome assembly of canola.
Thesis submission date: 23rd September 2015. Date of acceptance: 4th May 2016.
- 2010–2012 **Master of IT** Bond University, Gold Coast
Graduated with High Distinction
- 2006–2009 **Bachelor of Science Biology** University of Münster, Germany
Thesis: Analysis of splicing in two populations of marine plants using bioinformatic approaches

employment

- 2018–Current **Forrest Fellow** UWA, Perth
Edwards Lab. Continued work on genomics of complex plants with Forrest Foundation support.
- 2015–2017 **Postdoctoral researcher** UWA, Perth
Edwards Lab. Researched genetics of complex plants with a focus on canola and wheat. Worked closely with industry partners to improve their breeding programs. Preparing, writing, and publishing research. Currently supervising two interns, co-supervised four PhD students and one MSc student, as well as the local computational infrastructure and data management. Worked extensively on an ARC Industrial Transformation Training Centre application (2018 round).

publications

experience

- 2012–Current **Research collaboration with Bayer CropScience** Ghent, Belgium
Continued collaboration with Bayer CropScience on their plant breeding projects which includes several week-long visits to Bayer.
- 2011–Current **Co-founder openSNP.org** Germany/Australia
A project for customers of genotyping companies like 23andMe to share their data with scientists around the world, for free. Partially wrote and still maintain the site's Ruby on Rails code-base, interact and manage with the community of 5000 users, administration of the site's servers, and supervision of contributors.
- 2013–Current **Software Carpentry and Data Carpentry instructor** Australia
Certified Software Carpentry and Data Carpentry instructor. Software Carpentry is a Mozilla/Alfred P. Sloan Foundation funded non-profit organization which teaches best programming practices (structured programming, reproducible research, version control etc.) in bootcamps to scientists around the world. Data Carpentry is a sister-organisation that focuses on teaching best data management practices.
- 2018 **Research Bazaar Organising committee** UWA, Perth
ResBaz is a world-wide three-day festival promoting digital literacy. As member of the organising committee I searched for helpers and teachers, drafted the timeplan, designed the web page, raised funding, succeeded in getting government MP to hold keynote
- 2017–Current **Hacky Hour Founder** UWA, Perth
Founded the Hacky Hour at UWA, a weekly get-together of researchers and staff working with programming and data, doubles as a help-desk for students with programming problems.
- 2017–Current **Mozilla Open Science Leadership mentor** UWA, Perth
Mentoring open source programmers and researchers on how to streamline and grow open source and open science projects under the umbrella of Mozilla.
- 2016–Current **EMBL-ABR Head of Nodes member, Open Science Special Interest Group member** UWA, Perth
EMBL-ABR is an Australian-wide network supporting the technical needs of life sciences researchers. Members of the group of Head of Nodes meet monthly to discuss the way forward for the organisation. The Open Science Special Interest Group meets bimonthly to discuss how EMBL-ABR can advance open science in Australia.
- 2016–2017 **COMBINE WA Representative** UWA, Perth
COMBINE is the student and early career researcher subcommittee of the Australian Bioinformatics and Computational Biology Society (ABACBS). As the local representative I organise or help organise workshops and regular networking events.

awards & funding

2018	Forrest Research Foundation Non-stipendiary Fellowship Three year fellowship to pursue research at UWA, part of the three inaugural Forrest Fellows	UWA
2017	UWA Research Collaboration Award \$28,100 to fund a seagrass microbiome sequencing project	UWA
2014	GRDC Travel Award Travel cost scholarship	GRDC
2014	SAFS Travel Award Travel cost scholarship	University of Queensland
2013	Bayer Grants4Apps Grant to cover openSNP running costs	Bayer HealthCare
2011–2014	Two postgraduate scholarships My PhD was supported by two scholarships from UQ for tuition fees and living costs.	University of Queensland
2012	First place in PLOS/Mendeley Binary Challenge Won first price in a competition aimed towards the advancement of open science	Won with openSNP.org
2009–2011	Master IT 5x Top of class, 3x Vice-Chancellor's List for Academic Excellence, 1x IT Award Academic Excellence. Graduated with High Distinction. Recipient of John Oglethorpe Medal for highest GPA of all IT students graduating that semester	Bond University

teaching

2018	Teaching R Introduction to genomics analysis in R	Telethon Kids Institute, Perth
2018	Teaching Data Carpentry Introduction to genomics and shell	Research Bazaar, University of Western Australia, Perth
2017	Teaching Software Carpentry Introduction to data manipulation using Python	Research Bazaar, Curtin University, Perth
2016	Teaching and hosting Data Carpentry Hosted, planned, and set up the first Data Carpentry workshop at UWA, taught best data management practices	UWA, Perth
2016–Current	University teaching Co-teach and co-supervise SCIE4002, computational analysis for biology and biomedical MSc students. Set up and maintain the computational infrastructure needed for practicals. In 2017, the course has been judged 'consistently excellent' over six semesters based on student evaluations.	UWA, Perth
2016	Teaching Software Carpentry Taught introduction to Python	Research Bazaar, Murdoch University, Perth

2016	Teaching and hosting Software Carpentry	UQ, Brisbane
	Hosted, planned, and set up the first Software Carpentry workshop at UQ. Taught introduction to programming.	
2014	Teaching Software Carpentry	Melbourne
	Taught basic to intermediate Python as well as documentation and assisted at bootcamp in Melbourne.	
2013	Teaching Software Carpentry	Adelaide
	Assisted Software Carpentry bootcamp in Adelaide	
2009–2011	Tutoring	Bond University
	Tutored students in Intro to Programming (Java), Database Management (Oracle/MySQL) and Networks & Applications, held several all-day refresher courses before exams	

Presentations

2017	The future of wheat research	Wheat showcase, UWA
2017	Skipping the assembly step – what we can learn from looking at sequences directly	Pawsey Roadshow, UWA, Perth
2017	The State of Bioinformatics in High Performance Computing in 2017	HPCAC Conference, Perth
2017	Towards better plant breeding at UWA	COMBINE event, Perth
2017	Improving Plant Breeding using KNetMiner	Plant And Animal Genome conference, San Diego
2016	Towards a canola pan-genome: cautionary tales from the assembly bench	CCDM, Curtin University
2016	Sharing Experience: What Can We Learn from Each Other Developing Plant Informatics Systems	Plant And Animal Genome conference, San Diego
2015	Assessing and validating the amphidiploid genome of <i>Brassica napus</i> using genotyping by sequencing	Plant And Animal Genome conference, San Diego
2015	Using skim-based genotyping by sequencing for trait association and QTL cloning in <i>Brassica napus</i>	Plant And Animal Genome conference, San Diego
2014	Assembling and validating the genome of the <i>Brassica napus</i> using skim-based genotyping by sequencing	University of Queensland, GenGen Seminar Series
2012	openSNP: Crowdsourcing Genome Wide Association Studies	28th Chaos Communication Congress, Berlin
