i10-index: 15

education

- 2012–2015 **PhD** Applied Bioinformatics University of Queensland, Brisbane
Working in the Applied Bioinformatics group on the use of genotyping by sequencing to improve the genome assembly of canola.
Thesis submission date: 23rd September 2015. Date of acceptance: 4th May 2016.
- 2010–2012 **Master** of IT Bond University, Gold Coast
Graduated with High Distinction
- 2006–2009 **Bachelor of Science** Biology University of Münster, Germany
Thesis: Analysis of splicing in two populations of marine plants using bioinformatic approaches

employment

- 2018–Current **Forrest Fellow** UWA, Perth
Edwards Lab. Continued work on genomics of complex plants with Forrest Foundation support. Supervised one PhD student and two MSc students to completion.
- 2015–2017 **Postdoctoral researcher** UWA, Perth
Edwards Lab. Researched genetics of complex plants with a focus on canola and wheat. Worked closely with industry partners to improve their breeding programs. Preparing, writing, and publishing research. Supervised two interns, Co-supervised four PhD students and one MSc student, system-administrator for the local computational infrastructure and group data manager. Worked extensively on an ARC Industrial Transformation Training Centre application (2018 round).

experience

- 2012–Current **Research collaboration with Bayer CropScience, later BASF** Ghent, Belgium
Continued collaboration with Bayer CropScience on their plant breeding projects which includes several week-long visits to Bayer.
- 2011–Current **Co-founder openSNP.org** Germany/Australia
A project for customers of genotyping companies like 23andMe to share their data with scientists around the world, for free. Partially wrote and still maintain the site's Ruby on Rails code-base, interact and manage with the community of 5000 users, administration of the site's servers, and supervision of contributors.
- 2013–Current **Software Carpentry and Data Carpentry instructor** Australia
Certified Software Carpentry and Data Carpentry instructor. Software Carpentry is a Mozilla/Alfred P. Sloan Foundation funded non-profit organization which teaches best programming practices (structured programming, reproducible research, version control etc.) in bootcamps to scientists around the world. Data Carpentry is a sister-organisation that focuses on teaching best data management practices.
- 2018 **Research Bazaar Organising committee** UWA, Perth
ResBaz is a world-wide three-day festival promoting digital literacy. As member of the organising committee I searched for helpers and teachers, drafted the timeplan, designed the web page, raised funding, succeeded in getting government MP to hold keynote
- 2017–Current **Hacky Hour Founder** UWA, Perth
Founded the Hacky Hour at UWA, a weekly get-together of researchers and staff working with programming and data, doubles as a help-desk for students with programming problems.
- 2017–Current **Mozilla Open Science Leadership mentor** UWA, Perth
Mentoring open source programmers and researchers on how to streamline and grow open source and open science projects under the umbrella of Mozilla.
- 2016–Current **EMBL-ABR Head of Nodes member, Open Science Special Interest Group member** UWA, Perth
EMBL-ABR is an Australian-wide network supporting the technical needs of life sciences researchers. Members of the group of Head of Nodes meet monthly to discuss the way forward for the organisation. The Open Science Special Interest Group meets bimonthly to discuss how EMBL-ABR can advance open science in Australia.
- 2016–2017 **COMBINE WA Representative** UWA, Perth
COMBINE is the student and early career researcher subcommittee of the Australian Bioinformatics and Computational Biology Society (ABACBS). As the local representative I organise or help organise workshops and regular networking events.

awards & funding

2018	Rising Stars nomination	UWA
	Two early career researchers per UWA research school were nominated for Rising Stars, a university-wide event where researchers introduce a public audience to their research	
2018	Forrest Research Foundation Non-stipendiary Fellowship	UWA
	Three year fellowship to pursue research at UWA, part of the three inaugural Forrest Fellows	
2017	UWA Research Collaboration Award	UWA
	\$28,100 to fund a seagrass microbiome sequencing project	
2014	GRDC Travel Award	GRDC
	Travel cost scholarship	
2014	SAFS Travel Award	University of Queensland
	Travel cost scholarship	
2013	Bayer Grants4Apps	Bayer HealthCare
	Grant to cover openSNP running costs	
2011–2014	Two postgraduate scholarships	University of Queensland
	My PhD was supported by two scholarships from UQ for tuition fees and living costs.	
2012	First place in PLOS/Mendeley Binary Challenge	Won with openSNP.org
	Won first prize in a competition aimed towards the advancement of open science	
2009–2011	Master IT	Bond University
	5x Top of class, 3x Vice-Chancellor's List for Academic Excellence, 1x IT Award Academic Excellence. Graduated with High Distinction. Recipient of John Oglethorpe Medal for highest GPA of all IT students graduating that semester	

teaching

2018	Introduction to modern R	Telethon Kids Institute, Perth
	Introduction to R, tidyverse, ggplot2, and basic statistics approaches in R. Taught over two days.	
2018	Teaching Data Carpentry	Research Bazaar, University of Western Australia, Perth
	Introduction to genomics and shell. Part of the planning committee.	
2017	Teaching Software Carpentry	Research Bazaar, Curtin University, Perth
	Introduction to data manipulation using Python	
2016	Teaching and hosting Data Carpentry	UWA, Perth
	Hosted, planned, and set up the first Data Carpentry workshop at UWA, taught best data management practices	
2016–Current	University teaching	UWA, Perth
	Co-teach and co-supervise SCIE4002, computational analysis for biology and biomedical MSc students. Set up and maintain the computational infrastructure needed for practicals. In 2017, the course has been judged 'consistently excellent' over six semesters based on student evaluations.	
2016	Teaching Software Carpentry	Research Bazaar, Murdoch University, Perth
	Taught introduction to Python	

2016	Teaching and hosting Software Carpentry	UQ, Brisbane
	Hosted, planned, and set up the first Software Carpentry workshop at UQ. Taught introduction to programming.	
2014	Teaching Software Carpentry	Melbourne
	Taught basic to intermediate Python as well as documentation and assisted at bootcamp in Melbourne.	
2013	Teaching Software Carpentry	Adelaide
	Assisted Software Carpentry bootcamp in Adelaide	
2009–2011	Tutoring	Bond University
	Tutored students in Intro to Programming (Java), Database Management (Oracle/MySQL) and Networks & Applications, held several all-day refresher courses before exams	

Presentations

2018	Feeding the future world: safe-guarding Australia's food bowl in a changing climate	
	Rising Stars, UWA	
2018	From QTLs to candidate genes, or: There and Back Again	
	Institute of Agriculture Seminar Series, UWA	
2018	The path of least resistance (genes) - mining plant genomes for disease resistance	
	COMBINE/Pawsey bioinformatics symposium	
2018	Early Career Researcher Panel - What have I learnt at the beginning of my research career?	
	Combined Biological Sciences Meeting 2018	
2018	ScienceCafe - STEM outreach aimed at year 10 students	
	UWA	
2017	The future of wheat research	
	Wheat showcase, UWA	
2017	Skipping the assembly step – what we can learn from looking at sequences directly	
	Pawsey Roadshow, UWA, Perth	
2017	The State of Bioinformatics in High Performance Computing in 2017	
	HPCAC Conference, Perth	
2017	Towards better plant breeding at UWA	
	COMBINE event, Perth	
2017	Improving Plant Breeding using KNetMiner	
	Plant And Animal Genome conference, San Diego	
2016	Towards a canola pan-genome: cautionary tales from the assembly bench	
	CCDM, Curtin University	
2016	Sharing Experience: What Can We Learn from Each Other Developing Plant Informatics Systems	
	Plant And Animal Genome conference, San Diego	
2015	Assessing and validating the amphidiploid genome of <i>Brassica napus</i> using genotyping by sequencing	
	Plant And Animal Genome conference, San Diego	

- 2015 **Using skim-based genotyping by sequencing for trait association and QTL cloning in *Brassica napus***
Plant And Animal Genome conference, San Diego
- 2014 **Assembling and validating the genome of the *Brassica napus* using skim-based genotyping by sequencing**
University of Queensland, GenGen Seminar Series
- 2012 **openSNP: Crowdsourcing Genome Wide Association Studies**
28th Chaos Communication Congress, Berlin
